

Procedures for Canteen use

These procedures will help us be sure that we observe social distancing and the highest standards of hygiene in our school canteen

1. Order food for recess during Home Group

Food requiring preparation (all hot food and salad rolls/sandwiches) are only available by pre-order

2. Order food for lunch at recess time (from the canteen)

Items not needing preparation (e.g. noodles or packaged items) do not need to be ordered, they are always available

Some limited breakfast club items will still be available in the Cafe (free)

3. Pay for your food when you collect it

We prefer you to use a 'tap and go' card, but cash is still ok

5. Disinfect your hands

Use the pump bottle in the canteen to wash your hands thoroughly after you get your food, and before eating it

4. Observe social distancing

Only 4 people in the canteen at a time and observe the distance markers on the floor. Wait outside if you need to

6. Do not share food

Do not share your food with others. If you need to use the water fountain – use your own drink bottle OR a disposable cup provided and place them in the bin after use

7. What if I'm late to school?

If you arrive after HG and want to order recess please talk to the office when you sign in. It will not always be possible to place an order
